NEW OR CHANGED SERVICE Application should be made at the office of the Company, but if it is not convenient for you to call an application will be mailed upon your request by telephone. If you wish your instrument moved or changed our office should be notified at least 5 days in advance.

BILLS FOR SERVICE are payable one month in advance and if not paid between the 1st and 15th of the month a collection or delinquency charge of 25 cents will be added. If service is disconnected for non-payment a charge of \$1.00 will be added for restoration of service. For the convenience of our customers, arrangements have been made whereby bills may be paid at the La Habra Branch of the Bank of America, if not convenient to pay at the office of our Company or by mail to 117 N. Bright Avenue, Whittier.

Information regarding bills or rates for local service may be obtained by dialing 42-018.

RULES, REGULATIONS AND TARIFFS as filed with the California Railroad Commission, are available at our business office and are open for public inspection.

NUMBER CHANGES. The Telephone Company reserves the right to, and may

at its discretion, change the subscribers' telephone number, but liability for directory errors or omissions cannot be assumed by the Company.

ATTACHMENTS TO DIRECTORIES AND TELEPHONES. Devices claimed to supplant the directory or eliminate noise, destroy germs or increase transmission, generally interfere with satisfactory service. No apparatus other than that furnished by the Telephone Company should be attached to the telephones, lines or directories.

INSTRUCTIONS FOR USING AUTOMATIC TELEPHONES. Obtain the correct number from the latest directory or from the information operator by dialing 493. Remove the receiver from the hook and listen on the line before you start to dial. If the line is not in use you should hear the dial tone (a steady humming sound). Keep the receiver off while dialing. Place your finger firmly in the hole in the dial through which the first figure of the desired number is seen. Pull the dial around until your finger strikes the finger stop. Then remove your finger and allow the dial to return to its normal position. Each figure must be dialed in its consecutive order to obtain the desired number. If you make an error before you have completed the entire series of figures, hang the receiver on the hook for a few seconds. Then take off the receiver and dial the entire number again. If the party desired is on your line, follow instructions on Party Subscribers' Ring Back Number card or call Information. If after several attempts have been made to dial a number you have not heard the ringing signal or you keep getting a busy signal, dial 492, Repair Service, and report to them. If you are disconnected hang up the receiver for a few seconds and if you are the calling party dial the entire number again. If you were the called party, hang up the receiver and wait to be called again.

TIME SERVICE. To secure the time of day, dial 494. The dialing of this number operates a set of chimes connected to a master clock. The number of strokes on the low pitch chime indicates the hour, the medium chime the ten-minute intervals and the high pitch the unit of minutes. For example: 9:32 you will hear nine low pitch chimes, three medium and two high pitch chimes. 9:03 will be indicated by nine low pitched tones, a buzz and three high pitched tones, the buzz indicating the zero.

Modernize Your Home!

No home is modern without convenient telephone service. An additional telephone saves steps and time and enables you to answer your friends more promptly. Many people do not wait a sufficient length of time for you to get to your telephone in a distant part of the house.
